RECORD OF ANNUAL TOWN MEETING

Dunbarton, N. H. March 14, 1961

Meeting called to order and the Warrant read by the Moderator, Arthur Powell, at three o'clock in the afternoon. Check list posted and the polls were opened for balloting.

Fourteen were present.

After a statement by Richard Hammond that "the Chairman of the Board of Selectmen took upon himself to cause that portion of the Townsfolk who could be reached by telephone that the Town Meeting was postponed until the following day. This without council or authorization of the Moderator. It is further noted that the name of the same selectman is printed on the official ballot of this date" he introduced a motion -
"That this meeting be recessed until ten A.M. Saturday, March 18th; that the Town Meeting be held that day starting at three P.M.; and that the date on the ballot be changed by rubber stamp to correspond." So voted by the assembly.

Meeting again called to order at ten in the A.M. of March 18th and the warrant again read by the Moderator. Check list posted and the polls were opened for balloting.

TOWN OF DUNBARTON
NEW HAMPSHIRE

An ordinance relating to a building code and practice and its application to the use of land.

In order to retain the beauty and countrified atmosphere of the Town of Dunbarton, and to promote health, safety, morals, order, convenience, peace, prosperity, and general welfare of its inhabitants, the following ordinance is hereby enacted by the said Town, pursuant to the authority conferred by the Laws of New Hampshire.

1.

No building or structure shall be erected, or moved to a new location, and no existing structure shall be altered or repaired to an extent affecting more than 30% of the total area of the original building or structure, without first obtaining a permit duly granted by the administrative authority to whom adequate information and plans of the proposed building structure or alteration shall be submitted.

2.

It shall be the duty of the administrative authority to grant or refuse a permit within thirty days after receipt of application, the applicant may be called in for consultation by the administrative authority within the thirty day period for the purpose of gaining further information or making suggestions.

3.

Before a permit shall be issued, it shall be first determined by the administrative authority whether the proposed construction conforms to all the conditions of this ordinance, and the permit shall be issued only when such conformity is assured.

4.

No permit shall be issued unless the structure will present a reasonable appearance and will be in keeping with the neighborhood and unless a building is to be finished on the exterior in a permanent manner and is to be suitably painted on the outside whenever the same is wood or a material customarily painted. This is intended to eliminate the erection of structures obviously out of place for the neighborhood as judged by the property values and neighborhood character. When an objection on account of the appearance of a proposed structure as above indicated is raised by a person or persons residing or owning property within a radius of 1000 ft. of the property in question, the Board of Adjustment shall hold a public hearing to receive evidence on both sides and shall have the authority to decide whether the permit shall be issued or not.

5.

The Board of Selectmen shall be the administrative authority to issue permits for the erection or alteration of buildings or structures for which no charge shall be made.

6.

There shall be no building inspector. It shall be the responsibility of the applicant and builder, whose name shall appear on the permit, to adhere to all submitted plans and information for which the permit was granted.

7.

No owner or occupant of any land shall permit any ruins caused by fire, explosion, flood, storm, or other act of God, to be left unfinished or incomplete thereon, but shall finish or complete or remove the same within 12 months of date of occurence, except that if such property as herein described is subject to litigation, compliance with this section shall not be required until one year after final judgment of such litigation.

8.

No land shall be used for a motor vehicle junk yard, or for a dump, or for the storage of abandoned vehicles or discarded materials of any kind in manner that is disorderly, unsightly, noxious, or detrimental to the public, or prejudicial to the general welfare. The selection of a public dumping place maintained or designated by the Board of Selectmen shall not be affected by this regulation.

9.

No billboards or other outdoor advertising signs may be erected or displayed except such signs as are reasonably a part of and used in connection with the conduct of a profession, trade or business and on the property of the proprietor thereof. This ordinance shall not prohibit any reasonable signs at or near road intersections erected for the purpose of directing trade and patrons to local establishments.

10.

The erection of Quonset huts or similar structures for residential purposes shall be prohibited.

11.

Any aggrieved firm, corporation, or person may appeal to the Board of Adjustment, who shall have the authority to allow slight variance to the specific terms of this Ordinance where it can be shown that they would result in unnecessary hardship.

12.

Nothing in this Ordinance shall be construed to prevent the continuance of any existing use of land or buildings, but when any nonconforming use is discontinued for at least a year, said building or land shall be subject to the provisions of this Ordinance.

13.

Every new building or structure shall be set back from the front property line not less than forty feet, not less than thirty feet from the side and not less than fifteen feet from the rear property lines.

14.

Every dwelling shall have a minimum floor area of 500 sq. ft. outside measurement for each family unit. Steps or ground level terraces shall not be considered a part of the dwelling for the purpose of this section. All porches and other similar elements, designed and suitable for year round occupancy, shall be considered a part of the dwelling.

15.

Foundations shall be constructed of concrete, brick, cement block, or stone, except that industrial or commercial structures and accessory buildings may be set on piers of brick, stone, cement block, or reinforced concrete.

16.

Buildings must be framed according to good building practices and outside walls shall be constructed of wood or fire-resistant shingles, sidings, clapboard, brick, stucco, concrete or cinder block.

17.

The roof of every dwelling or attached buildings hereafter erected or recovered shall be covered with non-combustible or fire-resistant materials except that in non-congested areas the use of wood shingles may be permitted.

18.

(a) Chimneys shall be constructed of stone, brick or cement to the ground; each shall be lined with flue lining tile and extend at least two (2) feet above the roof to which it belongs, and shall have a clean-out opening at the base. All entrances to said chimney shall be of fire-proof construction. Chimneys shall not be used to support beams or timbers in any manner and shall be so constructed as to provide a one (1) inch clear space on all sides.

(b) No smoke pipe shall be installed or erected so as to be within twelve (12) inches of any combustible floor or ceiling, unless amply protected with non-combustible material. No smoke pipe shall be installed or erected which passes into or through partitions or walls of combustible material, except when guarded by a double collar of metal with air space of at least five (5) inches of brick or other non-combustible material between the pipe and the combustible material.

19.

Matters regarding safe practice and building design not specifically provided for in the Ordinance shall be governed by the National Building Code, recommended by the National Board of Fire Underwriters.

20.

Sections 14, 15, 16 and 17 may be set aside by the administrative authority for temporary building or structures which shall be erected for a period of no longer than three years.

21.

Every building or structure must be completed on the outside within eighteen months after issuance of permit except that a three-year period shall be applicable to structures devoted to bona fide agricultural uses.

22.

Installation of wiring and fixtures of electricity in buildings or structures must comply with the National Electric Code.

23.

Installation of plumbing must comply with New Hampshire State Laws and Regulations. Sewerage must be disposed of in septic tanks of proper size and its location and drainage system shall comply with New Hampshire State Laws and Regulations.

24.

The owner of any plot of ground intended for development or subdivision into building lots shall file with the Planning Board a plan or map of the proposed subdivision, and shall obtain approval of the Selectmen thereon before proceeding with the development or sale of lots in said subdivision.

25.

It shall be the duty of the Planning Board to inspect the site of such proposed subdivision, and to require such roadway and other facilities and areas for common use as will eventually be acceptable to the Town for maintenance by the Town, and to approve the same when satisfied that such proposed plans are in harmony and conducive to the general welfare of the Town and the neighborhood, and not detrimental to existing property values, but in no sense shall this be deemed an acceptance by the Town of the street or streets.

26.

The purpose of this article shall be to provide against such scattered or premature subdivision of land as would involve danger or injury to health, safety or prosperity by reason of the lack of water supply, drainage, transportation or other public services, or necessitate excessive expenditures of Town funds for the supply of such services and to provide for the harmonious development of the municipality and its environs, and for the proper arrangement and coordination of streets within subdivisions in relation to other existing or planned streets.

27.

The Board of Adjustment shall consist of five members, each member to be appointed annually for a term of five years by the Board of Selectmen, in accordance with RSA 31:67. The Planning Board and Finance Committee of Dunbarton shall be represented on said Board. It shall be the duty of the Board, in appropriate cases, and subject to appropriate conditions and safeguards to make special exceptions to the terms of the Ordinance in harmony with its general purpose and intent and in accordance with general or specific rules therein contained.

28.

The Board of Adjustment shall have the following powers:

(a) To hear and decide appeals where it is alleged there is error in any order, requirement, decision or determination made by administrative authority in the enforcement hereof or any ordinance adopted pursuant thereto.

(b) To hear and decide special exceptions to the terms of the ordinance upon which such board is required to pass under such ordinance.

(c) To authorize upon appeal in specific cases such variance from the terms of the ordinance as will not be contrary to the public interest, where, owing to special conditions, a literal enforcement of the provisions of the ordinance will result in unnecessary hardship, and so that the spirit of the ordinance shall be observed and substantial justice done.

(d) In exercising the above-mentioned powers such board may, in conformity with the provisions hereof, reverse or affirm, wholly or partly, or may modify the order, requirement or decision or determination appealed from and may make such order, or decision as ought to be made, and to that end shall have all the powers of the officer from whom the appeal is taken.

(e) The concurring vote of three members of the board shall be necessary to reverse any action of the administrative authority, or to decide in favor of the applicant on any matter on which it is required to pass under any such ordinance, or to effect any variation in such ordinance.

29.

If any section, clause, provision, portion, or phrase of this ordinance shall be held invalid or unconstitutional by any court of competent authority, such holding shall not affect, impair or invalidate any other section, clause, provision, portion or phrase of this Ordinance.

30.

Upon any well-founded information that this Ordinance is being violated the Selectmen shall take immediate steps to enforce the provisions of this Ordinance.

31.

Violations of this Ordinance shall be enforced in accordance with the Laws of the State of New Hampshire appropriate thereto.

32.

The provisions of this Ordinance may be amended or changed at any regular or special Town Meeting by a majority of the voters present as provided by the Laws of the State of New Hampshire.

33.

This Ordinance shall take effect upon its passage.

25. To see if the town will vote to purchase or accept a tract of land which has been approved by the Fire Department, for the new Fire House location and to pay the cost of same from the Fire House Fund.

26. To see if the town will vote to withdraw the monies from the Capital Reserve fund for new Fire House and to raise and appropriate the sum of $2,000, the same to be used for the procurment of land and the erection of the new fire house, with any unexpended balance to be set aside for this purpose.

REPORT OF LIBRARY TRUSTEES

Without adequate income, good library service is impossible. Libraries are nonprofit institutions and their returns to society are of an intangible quality which is as yet only partially subject to measurement. Yet their benefits are demonstrable and we feel our request for funds with which to operate are within reasonable limits and are justifiable in terms of community service.

Three business meetings were held with all three trustees and librarian present and in addition innumerable informal conferences with each other for interchange of views.

The school children continue to be most enthusiastic and make up our largest class of borrowers. Therefore, a larger share of the appropriation is used to purchase books for their benefit. We also try to be mindful of the needs of our residents (including summer visitors) who may be classified as "elderly." Some of these people are handicapped by physical infirmities and we must rely on the cooperation of concerned townspeople to supply them with desirable reading matter. In addition to books, magazines given to the library are in turn distributed to any who want them.

We wish to acknowledge with thanks the cooperation shown by so many of our townspeople. Due to the P.T.A. volunteers, an improved program has benefited our school children. We are grateful to all of those responsible for furnishing transportation to the Librarian. Appreciation is extended to many individuals as well as organizations who have given money and books in memory of their relatives, friends and neighbors. Memorial funds for Rodney W. Doucet and Walter T. Anthony were established and books purchased from these funds are in the following general classifications:

Juvenile
Maine, New Hampshire and Vermont
Religion
Fine Arts
Inspirational Adult Fiction

Two books pertaining to flower arrangements were given in memory of Miss Maud Anthony.

Report of
DUNBARTON VOLUNTEER FIRE DEPARTMENT

The year 1961 has been an extremely busy year for your Fire Department members. The majority of work has not been fire fighting, but has been on projects which will increase the quality of your department.

Fire fighting has been limited to 5 chimney fires, 2 grass fires, 3 dump fires and 1 electric motor. All of these were contained before they caused any major damage. Early notification of the fire department was a primary factor in accomplishing this. We appreciate spending 15 minutes to check a hot chimney rather than 10 hours at a house fire.

Our fund raising campaigns were very successful with the fine support of the community. At the time this report was written I had no figures on money expended from the $1,300 fire department budget, but we spent $1,134.59 from our own treasury. A few items we purchased were: Electric primer for Engine #1; Ice Auger; Stephenson Resuscitator; Misc. Equipment incl. wrenches.

We were not successful in obtaining our audible alarm for which $1,000 was raised and appropriated. We have many reasons for not completing this, among them Civil Defense has had a major change at the national level and all matching fund money was withdrawn July 1st. This was reinstated about October 27th. However, along with it came another book of compliance regulations. These are very extensive and Frederic Mills, Jr., Civil Defense Director, is currently complying with these. This is a great thing for a small community as it enables one to obtain much better equipment without doubling the budgets.

Possibly the greatest project we have ever undertaken was started this year. This being the obtaining and removal of Butler Building from East Weare. This building is 86 feet long, 32 feet wide, 12 feet high at the eaves and 17'6" high at the ridge. It has a standard pitched roof and the inside of this building is completely free of posts or supporting columns. This project has been completed thus far by the mutual effort of the Town Selectmen, Civil Defense, Fire Department, Fown Forest Committee and many civic minded individuals. As an example of time consumed your Fire Department members have expended more than 1,600 man hours. It is expected that we will erect this building in the summer of 1962. When completed the building will have a brick front, which has been donated, 2 overhead doors, an apparatus floor 32x48, with the

meeting room in the rear. It is also expected that the Civil Defense and Police Departments will utilize space for their activities and equipment. This is a mutual thought as all parties involved feel this will give the town better service at no extra cost. The meeting room in the rear should make an extremely fine training room for the improvement of our fire fighting practices.

At this time I would like to express my sincere thanks and appreciation for all the cooperation and assistance which was given the to Fire Department during 1961.

John R. Swindlehurst, *Chief Dunbarton Volunteer Fire Dept.*

AN APPEAL FROM YOUR FOREST FIRE WARDEN —

In these days of constantly rising taxes and wages, any unnecessary expense is an added burden on everyone's pocketbook - yours and mine. Forest fires cost money and damage our valuable woodlands. Lightning sets some forest fires, but we have no control of lightning. Children cause many fires. Ninety-eight percent of our forest fires result from human carelessness - our carelessness. This, we - you - and I can do something about.

When we require you to obtain a permit for out-of-doors burning or forbid you to burn on days of high fire danger or set up regulations - hours, etc., governing the use of the town dump we are simply protecting yours and the town's interests.

The ever present threat of forest fires is the concern of all of us; the responsibility for preventing them is ours and the costs of extinguishing are ours. We can do something about this problem, by being aware of and alert to the danger and by cooperating with your warden.

Do the things that are required of you —

1. Follow the warden's directions.
2. Secure the required burning permit.
3. Keep your fires under control.
4. Completely extinguish your fires before leaving them.
5. See that your children are properly cautioned.

Everyone will benefit by it!

REPORT OF TOWN FOREST COMMITTEE

The Town Forest Committee wants to report the completion of boundary survey and forest type mapping of the Stinson lot. Work has been done on the Winslow lot north of Stark Pond. This work is pruning and release thinning done under the Conservation Payment Plan. Ten acres were applied and approved by the County Forester. The cost to be repaid to the town on the basis of $15 per acre for pruning costs and $18 an acre for release cost.

A.	Stinson Lot	$302.50
	Printing maps	3.80
B.	Winslow tract north:	
	Ten acres weeding and thinning	75.00
	Ten acres pruned	392.50
	Gallon of Paint	2.95
	Total	$776.75

Total due to the town from ACP $330.00. Net cost will be $446.75.

The ten acres of pruned pine was done in keeping with conservation practices of one hundred—one hundred and fifty crop trees per acre selected at fairly even spacing over the area. As the work progressed, the trees were marked and total footage carried for report purposes. Total of trees pruned was 1,150. Total lineal footage was 15,144.

The Stinson Lot Boundaries were rerun after intensive search of adjoining ownerships. Corners were located and re-established. Boundaries were glazed where necessary and painted in parts. The tree cover was classified as timber type and located on the map and was almost nothing of ecomonic value at the present date. However there is need of timber stand improvement practice on portions supporting valuable hardwood and pine and areas of high-grade hardwood species.

Work has been started doing timber stand improvement on the Winslow Tract south on fifteen acres approved for additional work which will receive repayment in the year 1962.

REPORT OF POLICE DEPARTMENT

In the past twelve months the Police Department has received fewer complaints than usual. Cases involving breaking, entering, and larceny have declined noticeably. There have been fewer instances of damage to property, damage by dogs, etc.

Reports of accidents were about the same as in previous years, inattention being the cause of many of the accidents with excessive speed also a contributing factor. Dunbarton was fortunate in having no fatal accidents this year and it is hoped this good record will continue.

There is still the problem of excessive speed with which to contend. However, the Department feels that considerable progress has been made in curbing this dangerous practice. It is our belief that this is largely due to road patrol and the use of the Traffic Timer purchased by the town last spring. The Timer was used eleven times in the summer months with 1,171 cases checked. Approximately half of these cars were being driven ten to thirty miles per hour over the posted speed limit. Warnings were issued to many of the violators, mostly non-residents, some of whom were summoned to Court. It is gratifying to note that there were no repetitions of violations. The consensus is that the Timer was a worth while investment and its continued use will help to make our roads safer to travel. It is expected that the Timer will be used more extensively during the coming year, and requests for its use by anyone who feels it would help alleviate the speed situation in his section of the town would be appreciated.

During the past year the Department sponsored a paper drive to raise funds for the purchase of two-way radios to use in connection with the operation of the Timer. The results were gratifying, the sum of sixty-seven dollars being realized from the drive. The donation of scrap wire and metal increased the amount to ninety dollars. This sum was applied on the purchase of two radios, the Police officers paying the balance. The Department wishes to thank everyone who contributed to the drive and also the friends who donated the use of their trucks and time to collect the paper and haul it to the paper mill.

REPORT OF DUNBARTON CIVIL DEFENSE UNIT

What your Civil Defense Unit has done this year—

Meetings:

One at State House (with the Governor)
One at National Guard Headquarters (with the Corps of Engineers)
One at Town Hall (with selectmen and fire department)
One at C. D. Headquarters in Concord -
(with Dunbarton Police Department Unit)
One at C. D. Headquarters in Concord -
(with Dunbarton Fire Department Unit)
Twenty at C. D. Headquarters and State Purchasing Agency.
One at School House (with School Board and Superintendent)
Six with selectmen (on Butler Building)
Two at Field Engineer's Headquarters at Drew Lake.

Made at least 85 phone calls on C. D. business.
Answered at least 12 letter inquiries.
Passed out 350 pieces of literature.
Borrowed 4 films from C. D. library.
Bought supplies and equipment.

On June 1, 1961 a Butler Building (steel framed, aluminum covered, 32' x 84') was offered to the Dunbarton Civil Defense Unit. As Director, I signed the necessary papers for the building and the site clearance papers.

The service charge by the N. H. Distributing Agency was $25.00 which came out of my C. D. Budget. The building is worth approximately $27,000.00.

The building was dismantled and stored in town until the Civil Defense Director can find a lot on which to re-erect the building. Due to not yet having such lot, I am not asking for an appropriation in this year's budget to re-erect the building.

I want to thank the Dunbarton Volunteer Fire Department and the many volunteers who helped to dismantle and store the building and those who cleared the building site.

Frederic L. Mills Jr., *Dunbarton Civil Defense Director*

REPORT OF FINANCE COMMITTEE

The Dunbarton Finance Committee held eight meetings with an average attendance of seven members. Meetings were held with the Selectmen, School Board, Planning Board and Fire Department. The following recommendations were made:

That the Selectmen insert an article in the warrant to raise and appropriate the sum of $500.00 to repair the exterior of the town hall including the roof, and that any unexpended sum at the end of the year be set aside and applied to defray future cost and repairs to the exterior of the hall.

That the Fire Department enter articles in the town warrant to raise $1,000.00 to be placed in the capital reserve fund for a new fire house. To see what sum the town will raise and appropriate to acquire a parcel of land upon which to erect a fire house, and to have transferred the necessary money from the capital reserve fund to be used as required for the construction of a new fire house.

That the sum included in the budget for operation of the Police Department be raised from $250.00 to $500.00.

That only the one mile of road accepted by the town in the Holiday Acres development be plowed or maintained by the town.

That the Selectmen cease and desist from use of salt on town roads to relieve the town from liability of contamination of water supplies.

That the proposed sum of $350.00 for the library be increased to $500.00.

That an article be placed in the warrant to raise and appropriate a sum of $1,000.00 for town equipment and that the same be placed in a capital reserve fund.

That all expenses pertaining to the town water system including electricity be taken from the water rents received.

That an article be inserted in the school warrant to raise and appropriate a sum of $1,000.00 for future school expansion, the same to be placed in a capital reserve fund.

The Committee wishes to extend its gratitude for the cooperation it has received during the past year.

REPORT OF PLANNING BOARD

We have held four (4) regular and one (1) public meeting during 1961. The public meeting was held June 21st for discussion on the new road to be built running from Mansion Road to the Weare line.

On January 10th the board recommended that the Selectmen along with the Fire Chief and Health Officer make an examination of a certain piece of property as to its fitness, safety, and health conditions. This recommendation was promptly acted upon.

On August 9th the board recommended that the Selectmen have a sign erected — SLOW-BLIND CORNER — on the south side of East Dunbarton Road entering Baileys Corner. This recommendation was also given prompt attention.

The Board also advised that some action be taken to purchase the land now occupied by the Town Dump.

Signed,

Clarence E. Leach,

Secretary of Planning Board

SCHOOL WARRANT

To the Inhabitants of the School district in the town of Dunbarton qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the tenth day of March 1962, at 8:00 P.M. to act upon the following subjects:

1. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.

2. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.

3. To choose Agents, Auditors and Committees in relation to any subject embraced in this Warrant.

4. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

5. To see if the district will vote to raise and appropriate the sum of $1,000.00 to establish a Capital Reserve Fund for future school building requirements.

6. To see if the district will authorize the School Board to contract with Concord, Manchester, and Goffstown School Districts for the tuition of Dunbarton pupils in the high schools of said districts at an amount necessary to provide therefore.

7. To see if the district will vote to authorize the School Board to make application for and to accept, on behalf of the district, any or all grants or offers for educational purposes which may now or hereafter be forthcoming from the State of New Hampshire and/or United States.

8. To transact any other business that may legally come before said meeting.

Given under our hands at said Dunbarton this 14th day of February, 1962.

REPORT OF SUPERINTENDENT OF SCHOOLS

I should like to limit the scope of my annual report to the consideration of two major problems facing us at the present time; (1) the combination of multiple grades in one classroom and (2) the difficulty of securing and retaining good teachers. These two problems seriously handicap good, effective, and financially efficient education.

The current school year opened with an enrollment of seventy-seven pupils, the smallest number in the past five years. Projected enrollments, based upon children now in school, predict that for the next five years the total enrollment will not vary by probably more than a dozen pupils.

This apparently stable enrollment is the major problem. As long as the Center School has three rooms and about ninety pupils, and if the majority of the voters are not willing to make any changes in the number of classrooms, then this problem will remain.

Few teachers can effectively teach three grades in one room, despite their ability, because of the insufficient time which they can spend with any single pupil in any given subject during any school day.

If the number of grades per room could be decreased, it would be a step in the right direction. Because financial needs must always accompany educational decisions, the solution to this problem seems quite remote.

Perhaps the best approach to the ultimate solution of the major weaknesses of the Center School might be the formation of a town-wide distribution of a citizens' committee which would study this situation and the possibility and feasibility of new construction, fewer grades per room, tuition possibilities, etc., and to submit a written report to the voters at the next annual District meeting for their study and action. This report should list the various proposals studied, the educational advantages and disadvantages of each, a complete comparative cost estimate of each proposal, and their proposed solution.

A school's strength or weakness is dependent upon the type of teacher it employs and retains. Due to the changes in the national economic and social patterns, and the demand for teachers being greater than the supply, teachers are experiencing a teacher market.

No amount of tact or diplomacy can hide the fact that very few candidates during the past few years have desired to teach in a two- or three-graded classroom situation.

The first teacher problem then is lack of interest in teaching in Dunbarton because of our grade organization.

The second teacher problem concerns the number of teacher replacements or turnover. Some turnover is to be expected each year, but beyond a certain point it is a large factor in limiting the efficiency of any school. During the past four years, the local turnover has been one, two, one and two teachers per year respectively. The reasons given for these changes are teachers desiring to teach one grade per room and a higher salary. During the past four years, the Board has been made increasingly aware of these facts in their efforts to employ the best candidate within their salary range and the following chart will show this phase of their attempt to hire better teachers.

Average Salary of Classroom Teachers in New Hampshire—

Year	*State Average*	*Dunbarton Average*	*Difference*
1958-59	$4,151	$3,533	$618
1959-60	4,356	3,783	573
1960-61	4,576	4,133	443
1961-62	4,802	4,367	435
1962-63	Not Available	4,700	---

It is therefore apparent that any prospective teacher, interested in teaching in Dunbarton must teach in a multiple-grade-per-room situation and receive less salary than he would receive in many other New Hampshire communities.

We are indeed fortunate that not all teachers look upon a teaching position in only those two facets, as may be witnessed by the memory of those excellent and dedicated teachers, who have served Dunbarton so nobly in the past.

I wish to express my sincere appreciation to those teachers, friends, and those other thoughtful and cooperative citizens, who have given us aid and encouragement. Their understandings are deeply appreciated.

Respectfully submitted,

Charles H. Minnich
